No there's not. When people do MS work, they charge to the PRCs that pertain to their program. There are no PRCs that relate to MS.

Susan, we have done work for OECEJ too. Is there a PRC for Energy Extraction activities?

At this point we are doing EPM MS shale work for the region, arguably WPD. We have a small EPM budget for EPCRA/RPM to support our program work that we really can't afford to tap for other work. Any suggestions would be appreciated. Thanks, Kathy.

Hi Kathy,

I'm not sure what you mean. What have you been using in the past for MS work? There is no PRC for Marcellus Shale.

Susan -- we are being asked to provide civil investigator support to find addresses of homeowners in the Dimock PA area whose wells might be impacted by shale gas activity. Not certain at this point if it is SF or not. Need to pay for on line searches. What account number/DCN should be use? thanks, Kathy
